

COVID-19 PROTOCOLS AND PROCEDURES (revised 3/1/23)

1. Face coverings are now optional. If you would prefer that your therapist wear a mask, please let them know. Masks will be available for those who wish to wear one.
2. Staff and clients will stop at sanitation stations to sanitize hands thoroughly before going into therapy. Staff and clients will sanitize hands again before leaving the therapy room.
3. Rounds of frequently touched surfaces (light switches, door handles, cabinet drawers handles, toilet handles, faucets, sinks, etc.) as well as refill hand sanitizer, soap dispenser, disinfectant spray bottles, and paper towels will be conducted regularly.
4. Treatment rooms/gyms and all therapy materials/equipment will be regularly cleaned and sanitized.
5. HVAC with fans and two medical grade Air Purifiers will run in the clinic throughout the day.
